Public relations	at least one in total	at least one in total	confirmation of participation / documentation
Publications	at least one	at least one	publication
Case reports/ working group meetings	Participants starting from June 2024: Regularly participation	no requirements	form confirmation of participation

The current requirements (training modules) were fulfilled: yes no

A list of attended guest speaker seminars has been presented: yes no

Publication*: A First-authorship/Co-authorship is planned/available: yes no
 in preparation

*Though not mandatory, we want to emphasize the significance of achieving at least one first- or co-authored publication. A publication enhances career prospects, may improve the doctoral grade and documents the academic success of the doctoral candidate. Noteworthy: The Medical Faculty can only secure merit-based allocation of state funding for research and teaching (LOM) for doctoral candidates who have (1) completed a structured educational program such as Life@FAU/ IZKF and (2) have a first- or co-authorship publication.
